

The Business:

GamerSafe is an exciting advancement for online gaming that allows players and developers alike to expand the online gaming experience. This is done by allowing access to various games through one portal no matter where the game is hosted. GamerSafe provides a unique platform to provide transactions and purchasing of virtual money for the flash game developers.

In this platform the virtual money (GamerGold) is purchased via microtransactions to allow the gamer to purchase rewards and other items to enrich the gaming experience. The GamerSafe platform provides the end-user the ability to keep track of all of their favorite games and allows them to use one log-in for all of the games.

The Challenge:

GamerSafe expressed their need for global payment options and the flexibility for accepting micropayments that would allow their gamers to purchase the GamerGold. Together with the payment options and micro transactions their need for a payment page was just to make it simple and user friendly.

The Solution:

The G2S designers included all of the newest features that have been integrated into our solution portfolio. Although all of the Gate2Shop's solution would not be needed, they are made available to supplement the needs of GamerSafe.

Some of the features included in the G2S portfolio are:

- Superior Security Practices
- Microtransactions
- Chargeback Guarantee
- No Merchant Account
- Multiple payment options
- Rapid account processing
- Superior Risk Management
- Key License Management/Hosting

“ The G2S designers included all of the newest features that have been integrated into our solution portfolio. ... ”

Gate2Shop extends the ability of the vendor to conduct business worldwide. Whether it is Debit cards or Credit card processing, Gate2Shop provides the Alternative Payment Methods such as Real Time Bank Transfers for various financial institutions. These options enhance Gate2Shop's ability to meet the industry's needs.

About G2S

Powered by Safecharge Technologies, G2S provides complete selling solutions for small, mainstream ebusinesses.

Through the powerful combination of the most advanced technology available today and staffing the leading experts in risk-analysis, G2S prides itself on providing the most accurate fraud prevention in the industry - while maintaining maximum sales conversions.
