

### The Business:

Paint your life (<http://www.paintyourlife.com>) provides the unique service of taking a supplied photograph and transferring the image to a canvas by utilizing highly qualified artists. All pictures are hand painted and allow for specific modifications to fit the customers' requests. These hand-painted works of art make the perfect gift to your loved ones or the once in a lifetime addition for your home.

This process is extremely easy to work with right from the comfort of the client's home from their website found at <http://www.paintyourlife.com/shop.asp>.

First; choose the attributes for the painting that is requested. Next the selected image is up-loaded from the client's computer and then the shopper is directed to check out. This process is completed in a relatively short period of time and provides the convenience of not leaving home to have a high quality portrait hand painted and then delivered to the client's home.

***“In the past, before working with G2S we had many customers who had to cancel orders because they could not make the payments online. Now that G2S has given us the creative alternative payment methods, we can offer solutions for everyone's choice of purchasing our products. If at any time you have any companies who are not sure about using your service, please refer them to us and I will give them more confidence.”***

### The Challenge:

Since Paint your life operates on an international scale, they needed payment options and methods that are utilized and accepted worldwide. With the wide variety of services that Paint your life offers, one of the requests was to provide a solution that will allow them to market their products and services on the global market. Providing these additional solutions had to be done without the interruption of the ongoing business that Paint your life was conducting so special care was needed to make it seamless.

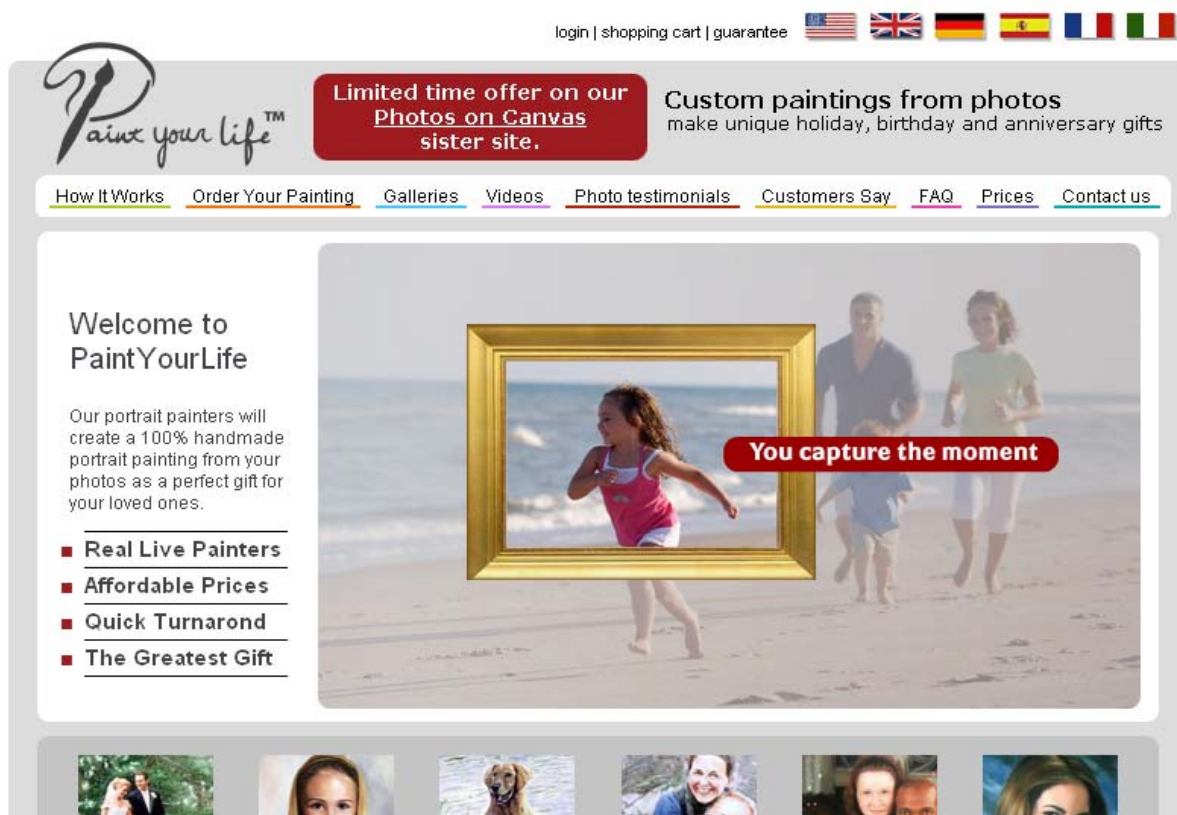

With these requirements they also needed a customized payment page to blend in with their website. Therefore, they decided to check what Gate2Shop could offer.

### The Solution:

Paint your life got a seamlessly integrated payment solution and it took very little time to set up. The G2S public payment page was embedded into the Paint your life website using the iFrame solution. The iFrame solution allows the end-user to complete their purchase in a secure environment while maintaining the look and feel of the vendor's website.

And with the global sales, the team at Gate2Shop responded with 50+ payment options and multi-lingual services that cover both local and worldwide sales. These multiple payment options and languages offer a more personal service and re-assurance that the client is receiving the best possible customer service.

The benefits are clear right away, as the number of people placing orders online is constantly increasing. With Gate2Shop, Paint your life has increased their online sales and streamlined the payment process with the features that were provided.

### About G2S

Powered by Safecharge Technologies, G2S provides complete selling solutions for small, mainstream e-businesses.

Through the powerful combination of the most advanced technology available today and staffing the leading experts in risk-analysis, G2S prides itself on providing the most accurate fraud prevention in the industry - while maintaining maximum sales conversions.
